KITCHEN NOVELTIES 2020/21

TEAM 7

INTERVIEW WITH GEORG EMPRECHTINGER

CEO and owner of TEAM 7

k7 kitchen, wood type oak white | ark bar stool

What defines a TEAM 7 kitchen?

Our love for wood and the desire to bring its authentic characteristics into the homes of our customers. TEAM 7 has been the pioneer of eco-furniture for 40 years. We decided to consistently follow "green" principles and strive for the perfect interplay of nature, design and technical expertise. This is rooted in high quality artisan craftsmanship and many decades of experience.

What do you think makes solid wood furniture so uniquely appealing?

What could be more beautiful than the real thing? For anyone who sees cooking and enjoying food as a multi-sensory experience, wood is the perfect natural material for their kitchen. The finest hardwood, assembled without formaldehyde, finished with natural oil – and that's it. Every TEAM 7 kitchen is true to our promise of pure solid wood. After all, this is where vital foodstuffs are stored and prepared. Open-pore, natural wood is the ideal material: it minimises odours, it can absorb moisture, is free from harmful substances and even has an anti-bacterial effect.

What are the defining characteristics of a high-quality kitchen?

The true quality of a kitchen is not always obvious at first glance. It's worth taking a look behind the cupboard doors. The same quality standards should apply to the materials and workmanship there too. At TEAM 7 we build the cabinets and drawers for our kitchens out of solid wood. This gives them maximum stability and makes them extremely durable. For the fronts we use solid wood panels, produced in our own board factory using the latest 3-layer technology. These 3-layer boards have tremendous structural stability and open up unique possibilities in design and function.

What are the key considerations when planning a kitchen?

Every cook has different ingredients, utensils and storage needs. So the kitchen should be carefully tailored to suit the users' needs. Solid wood kitchens by TEAM 7 are individually planned and custom-made to order. This allows us to adapt the kitchen perfectly to suit individual ergonomic and architectural requirements. The way we cook makes a difference too. If you have to spend ages hunting through cluttered cupboards for every kitchen gadget and every ingredient, that really spoils the fun of cooking. Our versatile drawer dividers can be flexibly arranged to suit individual preferences. Cupboards with innovative fittings ensure things are tidy and easy to find. Everything is readily accessible, not a centimetre of space is wasted, and cooking becomes even more of a natural pleasure.

← continuously height-adjustable from 74 to 114 cm

beetroot with apple and horseradish sauce

ingredients: 300 g cooked beetroot, 1 tbsp oil, half an onion, 50 g floury potatoes, 250 ml vegetable stock, ¼ tsp galangal, half a juicy, tart apple, 1 tbsp lemon juice, 1 tsp horseradish cream, salt

method: Peel beetroot and slice thinly. Heat the oil in a non-stick pan. Add finely chopped onions and cook on low heat until soft and transparent. While stirring, add small potato cubes and fry for a few minutes. Add vegetable stock and galangal. Cover and simmer for 10 minutes. Add finely chopped apple; cover and simmer for 4 minutes. Blend to a fine puree using a hand blender. Mix beetroot into the apple sauce and heat for a few minutes. Stir in horseradish and lemon juice, add salt to taste. Delicious with caraway potatoes.

LIVING WITH ALL THE SENSES

A longing for things that are genuine is inherent in human nature. We can only feel things fully with all our senses when they are real. The search for naturalness and authenticity is becoming more and more important, particularly in this increasingly digital age. The virtual world is limited to hearing and sight, and cannot fulfil this yearning.

The open-pore, living wood we use to make our furniture has the unique ability to appeal to every single one of our senses. That's why we do everything we can to bring wood and its authentic characteristics into the homes of our customers. Take a closer look at wood, the sensational material!

TEAM 7 100 %

VIRTUAL

 <p><i>sight</i></p> <p>Our carefully selected wood surfaces are sorted by hand and genuinely unique. Like the trees they are made from.</p>	 <p><i>hearing</i></p> <p>Guitars, violins and pianos – they all depend on real wood for their sound.</p>	 <p><i>touch</i></p> <p>Enjoy the warmth of our oiled, open-pore wooden surfaces – you can literally feel it.</p>	 <p><i>smell</i></p> <p>Close your eyes and enjoy the scent of real wood.</p>	 <p><i>taste</i></p> <p>Fine wine from a wood barrel, fresh bread from a wood oven: pure pleasure.</p>

WE ARE DEDICATED TO CREATING KITCHENS THAT ARE JUST AS UNIQUE AS WOOD ITSELF.

– it's a tree story.

bespoke – custom made for a perfect fit

Manufacturing exclusively to order allows us maximum flexibility to create the kitchen of your dreams. Every one of our kitchens is designed to incorporate your ideas in detail and to perfectly match your needs. A wide choice of wood types, materials, and handles, with an extensive range of cupboard styles and modern interior fittings allow numerous different options for configuration. We can adjust heights, widths and depths for individualised layout planning – and even create bespoke designs.

FROM THE FOREST TO THE FINISHED FURNITURE: IT'S IN OUR HANDS.

The entire production process for our furniture is in our hands: from natural seasoning and drying of the wood, to making the solid wood panels, right through to the finishing touches by our traditionally trained craftsmen. This means we can guarantee high standards for environmentally friendly production and quality.

inviting and elegant

This wonderfully inviting **linee** kitchen, with its elegant combination of wood, coloured glass and natural stone, exemplifies the wide range of planning and design options offered by TEAM 7. A striking extension table makes this kitchen the perfect meeting place for the whole family. Floor-length doors, design elements in the form of glass cabinets and equipment niches concealed by retractable hinged doors all give the kitchen a calm, elegant look.

BLACK LINE KITCHEN

black line

Coloured glass, matt black handles and plinth panels are the key ingredients in the **black line** kitchen's elegance. Genuine solid wood makes a fascinating contrast and – together with its open design style – gives **black line** a particularly inviting appeal.

perfect symbiosis

Our kitchens offer a unique combination of nature, design and technology.

sophisticated details

Clever, practical configuration options make each TEAM 7 kitchen distinctively special.

durable and strong

Cabinets and drawers made of genuine solid wood are particularly hard-wearing.

free from harmful substances

Finished exclusively with natural oil, the wood retains its anti-bacterial properties, ideal for hygienic food storage.

solid wood meets ceramic

cera line

Generous use of ceramic is the defining feature of the **cera line** kitchen, creating an exciting contrast with the natural wooden surfaces.

wood types | ceramic colours

All our kitchens are available in the following wood types and ceramic colours:

inner beauty

pro inserts offer simple and versatile options for organising the contents of drawers.

new bar handle

For excellent handling and stylish design accents in the kitchen.

ark

Available in two heights, the **ark** bar stool is a stylish partner for kitchen islands, breakfast bars or counters. The backrest of the seat shell, which comes in two different heights, and the high-quality leather or fabric cover ensure lasting comfort.

custom made

TEAM 7 kitchens are custom-made to order. An extensive range of cupboard types, with options for reducing heights, widths and depths* if required, means we can plan the layout individually for you.

*except where limited by functional fittings

LOFT KITCHEN

loft

The **loft** kitchen is the modern country-style kitchen for those who love wood, enjoy cooking, and who appreciate authentic craftsmanship and natural materials. The open design style gives the **loft** kitchen a particularly homely atmosphere while offering a perfectly planned environment for enjoyable cooking.

EVEN IF YOU LIVE IN THE CITY: WELCOME TO YOUR COUNTRY COTTAGE KITCHEN.

QUALITY CRAFTSMANSHIP

We've been making furniture since 1959.

This experience makes itself felt. Every TEAM 7 kitchen is unique: hand built in our workshop by experienced joiners using traditional Austrian artisan craftsmanship. Our knowledge of proper workmanship with wood has been passed on for generations and is your guarantee for the high quality of our products.

durable and hygienic

Cabinets and drawers in our kitchens are constructed entirely of solid wood. This gives them the highest level of stability and resilience. Finished exclusively with natural oil, the wood is free from harmful substances and retains its anti-bacterial properties for hygienic food storage.

3-layer technology

In our board factory, we can produce high-quality 3-layer boards that are extremely stable. This technology opens up unique possibilities for design and functionality.

SIMPLE DAY-TO-DAY CARE

Wood is naturally accustomed to all sorts of challenges: it is extremely robust. This makes our kitchens especially easy-care. All you need for day-to-day cleaning is a dry or slightly moist cotton cloth.

product care and repair

The open-pore finish of our wooden surfaces means small dents and scratches are easy to treat. Even the traces of many years of use can be removed: sand down, apply oil, and you're done. Your kitchen will look like new.

improves air quality

Genuine, open-pore solid wood brings comfort and warmth into your home. It breathes, absorbs humidity and releases it again if the air is dry. This creates a noticeably more pleasant atmosphere in the room. Wood also has a natural anti-static effect and does not attract dust.

Ecolabel, ISO, EMAS, GS

Our EMAS certificate, Austrian Ecolabel and ISO certificates confirm that our production processes are ecologically friendly and sustainable, and certify the high quality standards of our products. Our kitchen range is also GS certified, which guarantees maximum safety.

test lab

Right from the development phase, we comprehensively test the function, ergonomics, stability and safety of our products in our own test lab, over thousands of cycles. TEAM 7 offers only customised furniture – with technology and function that has been perfected.
