## COMPANY

Il brand Cuzzini & Fontana nasce dall'incontro di Luca Cuzzini, già Presidente della Teuco Cuzzini, e Gary Fontana, titolare di OC Shanghai, due imprenditori con una lunga e consolidata esperienza nel settore dell'arredamento. L'azienda, in rapida ascesa, si è recentemente dotata di un nuovo stabilimento, provvisto di moderni macchinari 4.0, ed è in corso una notevole espansione che prevede la realizzazione di un secondo polo produttivo. Il concetto alla base della filosofia di GF Interiors è Made with Love in Italy e racchiude passione nella selezione dei materiali, cura nelle lavorazioni artigianali, attenzione per i dettagli e alta capacità tecnica per un prodotto dallo spiccato valore sartoriale.

## NIGHT IN JAZZ CONCEPT

Il jazz come processo creativo fondato sull'interazione, sul ritmo, sulla fluidità è la fonte di ispirazione di Night in Jazz, nuovo catalogo di Guzzini & Fontana. Come questo genere ha saputo innovare le consuetudini musicali del proprio tempo, così i prodotti GF Interiors sono concepiti per rompere gli schemi tradizionali dell'arredamento, trovando nuove inedite collocazioni che interpretano i continui cambiamenti della sfera legata all'abitare. E come l'improvvisazione consente al jazz di mantenersi sempre attuale mutando incessantemente, così nuovi modelli, finiture e materiali fanno il loro ingresso nelle collezioni Guzzini & Fontana per disegnare degli spazi sempre più accoglienti e fruibili, capaci non soltanto di integrare più funzioni ma anche di vestire l'intera abitazione nel segno di un design dall'eleganza contemporanea.

---

Jazz as a creative process based on interaction, rhythm and fluidity is the source of inspiration for Night in Jazz, the new catalog by Guzzini & Fontana. Just as this genre has been able to innovate the musical habits of its time, so GF Interiors products are designed to break the traditional patterns of furniture, finding new and unprecedented locations that interpret the continuous changes in the sphere of living. And just as improvisation allows jazz to always remain current by constantly changing, so new models, finishes and materials make their entry into the Guzzini & Fontana collections to design spaces that are increasingly welcoming and usable, capable not only of integrating more functions but also to dress the entire home in the name of a design with contemporary elegance.

## TRASVERSALITY

Se la dimensione temporale frammenta internamente le abitazioni, suddividendole in zona giorno e zona notte, i veri attori della casa sono coloro che si muovono negli spazi e vivono la quotidianità all'insegna dell'integrazione totale tra i differenti ambienti. Per rispondere a questa nuova sfida, Guzzini & Fontana propone collezioni ispirate a un concetto di flessibilità estrema. E se la necessità è quella di fornire sempre nuovi spazi adibiti al contenimento, le soluzioni GF Interiors, perfettamente ambientabili in ogni angolo delle moderne abitazioni, esprimono l'essenza di una casa improntata alla fluidità.

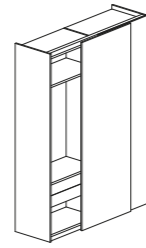

If the temporal dimension internally fragments the homes, dividing them into the living and sleeping areas, the real players in the house are those who move through the spaces and live their daily lives in the name of total integration between the different environments. To respond to this new challenge, Guzzini & Fontana proposes collections inspired by a concept of extreme flexibility. And if the need is to always provide new storage spaces, GF Interiors solutions, which can be perfectly set in every corner of modern homes, express the essence of a house marked by fluidity.
